

COPIES CIRCULATED

PAUL MEDD CEO

CAROL PILSON MONITORING OFFICER

MICHAEL HUMPHREY LICENSING CHAIRMAN

KIM WINTERTON LICENSING OFFICER

JOHN CLARK LEADER OF THE COUNCIL

Fenland District Council

8th March 2016

To Kim Winterton

Due to a misunderstanding many Wisbech Drivers and firms only heard of this document late afternoon of the 7th March leaving no time for the letters to be distributed effectively. Nonetheless it must be stated the feelings are as strong there as in March and more signed letters can be supplied.

Other Wisbech drivers feel this document didn't oppose the new penalty points system for the Taxi industry strongly enough and intend to supply the council with their own correspondence.

The Taxi and Private Hire Industry

To whom it may concern

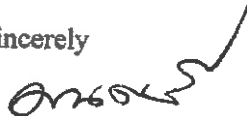

Name MR MONTREE KAEWNOK Date 08-03-16
Address THE COTTAGE, MILL RD, WALPOLE HIGHWAY,
NISBECH, PE14 7QL

I would like to give my support to the new proposed penalty points system the council intends to put in place. This support can only be offered if the implementation of the policy is dealt with in a responsible way and takes into consideration the needs of the taxi and private hire industry as well as those who depend on them.

We have identified issues that appear contrary to the above and we genuinely hope these are simple oversights or mistakes which we are all capable of making and will be taken under serious consideration and hopefully amended.

The council clearly has a responsibility to protect the public and ensure their safety. It's hoped the council will also take as seriously the safeguarding of our livelihoods from potential abuse of the system. Therefore we hope you agree a transparent system is also needed to assess enforcement officers if found acting in anything other than the responsible fashion their positions demand and unnecessarily put our family's livelihoods at risk.

Yours sincerely

PS we have been informed we are to sign a document connected to this proposal, please can you supply me with the conditions of signature in reasonable time to take advice.

I would like to give my support to the new proposed penalty points system the council intends to put in place. This support can only be offered if the implementation of the policy is dealt with in a responsible way and takes into consideration the needs of the taxi and private hire industry as well as those who depend on them.

We have identified issues that appear contrary to the above and we genuinely hope these are simple oversights or mistakes which we are all capable of making and will be taken under serious consideration and hopefully amended.

The council clearly has a responsibility to protect the public and ensure their safety. It's hoped the council will also take as seriously the safeguarding of our livelihoods from potential abuse of the system. Therefore we hope you agree a transparent system is also needed to assess enforcement officers if found acting in anything other than the responsible fashion their positions demand and unnecessarily put our family's livelihoods at risk.

Yours sincerely

PS we have been informed we are to sign a document connected to this proposal, please can you supply me with the conditions of signature in reasonable time to take advice.
