Cambridgeshire County Council Archaeology

I am writing to confirm that an archaeological evaluation of the site has already been completed and a report of results submitted and approved (Cambridgeshire Historic Environment Record reference ECB6045). The evaluation revealed no significant archaeological features or deposits within the development area. No further archaeological works are recommended and we have no further objections or requirements to the development proceeding as proposed.

Resolution: No change to the recommendation which is to grant the application as per Section 11 of agenda item 5.
