

**PLANNING COMMITTEE DATE: 16/12/2020**

**APPLICATION NO: F/YR19/1068/F**

**SITE LOCATION: Land North of Maple Grove Infant School, Norwood Road, March, Cambridgeshire**

**UPDATE**

**Typographical error**

Paragraph 5.8 of the report should read:

- 5.8 It is considered that the level of use of this type of informal link would not be as great as would be encouraged by connectivity to the school (as considered above) and that the use of shared surface private roads, would therefore not present the same degree of issues.

**Further Consultation responses**

**Anglian Water**

Response remains as previously noted in the original report.

**The March Society**

Note the updated description.

Still consider that traffic in the area is a growing problem and note there is no further information on affordable housing.

Welcome the accommodation of a potential future access to the school and acknowledge the need to balance the concerns of residents regarding a safe environment and the provision of a permeable scheme with access to shared space and social interaction.

**Recommendation:**

The recommendation remains as per the main report.
