

Village Thresholds Position Statement

19 March 2021

The table below provides information on the current position in relation to village thresholds for Policy LP12 Part A of the Fenland Local Plan. A pre-application community consultation exercise is required for developments in villages that have already reached the threshold.

The information does not include any applications currently awaiting a decision. Therefore, even if the threshold for a village has not been reached, it is recommended that a pre-application community consultation is carried out as a safeguard prior to submitting a planning application.
