## Background

The Representation of People Act places a duty on the Council to divide the District into polling districts and to designate polling places for each district. The Council also has a duty to keep those arrangements under review.

In compliance with the Review of Polling Districts and Polling Places (Parliamentary Elections) Regulations 2006, every Council in England and Wales was required to undertake and complete a review of all of the polling districts and polling places in its area by 31 December 2007, which accordingly was undertaken in Fenland, and agreed by a full meeting of the Council in December, 2007.

Subsequent reviews have taken place in 2014, 2016, 2018 and 2020. The last review took place in 2022 due to Local Government Boundary Commission for England's Electoral Review of Fenland and changes to the number of councillors and boundaries of some of the wards within Fenland and the implications of the Elections Act in terms of Voter ID and accessibility.

This review is a compulsory review which must be started and completed within a 16 month period that starts on 1 October every fifth year after 1 October 2013.

## UK Parliamentary Boundary Review

The review will take into account the proposals of the new UK Parliamentary Constituency Boundaries, which are expected to come into effect at the next UK Parliamentary General Election, which has to take place before 28 January 2025.

The new Parliamentary Constituency Boundary for North East Cambridgeshire is fully coterminous with the Fenland District Council boundary. However, as these new Parliamentary boundaries do not come into effect until the next Parliamentary General Election there are still some polling districts, places and stations that lie within East Cambridgeshire District Council area but this review focuses solely on the Fenland polling districts and places.

## Definitions

### a) Parliamentary Constituency

The area designated by the Boundary Commission having separate representation in the House of Commons. This cannot be changed by the review. The division of the constituency into polling districts and places is the subject of the review.

### b) Polling Districts

The area created by the separation of a ward, division or constituency into smaller parts, within which a polling place can be determined which is convenient to the electors.

### c) Polling Places

The building or area in which polling stations will be selected by the Returning Officer.

### d) Polling Station

The actual area where the process of voting takes place. This must be located within the polling place and designated for the particular polling district. This function is the responsibility of the Returning Officer.

## The Review Process

The Council is required to publish notice of the holding of a review. This has been carried out by way of a notice posted at Fenland District Council Offices and on the Council's website.

## The timetable for the review is set out below:

Publication of notice and consultation document	w/c 2 October 2023
Closing date for representations	10 November 2023
Consideration of all representations	24 November 2023

Returning Officer approves final scheme	w/c 27 November 2023
Presentation at full Council	11 December 2023
Register of Electors published in accordance with the new scheme	1 February 2024

### Criteria for Polling Places and Polling Districts

There are a number of factors to take into account when considering polling districts and polling places. Guidance from the Electoral Commission lists the following key considerations:

#### With regard to polling district boundaries:

- **Boundaries:** Are they well defined? For example, do they follow the natural boundaries of the area? If not, is it clear which properties belong in the polling district?
- **Location:** Are there suitable transport links within the polling district, and how do they relate to the areas of the district that are most highly populated? Are there any obstacles to voters crossing the current polling district and reaching the polling place e.g., steep hills, impassable major roads, railway lines, rivers?

#### With regard to polling places:

- **The location:** Is it reasonably accessible within the polling district? Does it avoid barriers for the voter such as steep hills, major roads, rivers, etc.? Are there any convenient transport links?
- **Size:** Can it accommodate more than one polling station if required? If multiple polling stations are required, is the polling place ample enough to accommodate all voters going into and out of the polling stations, even where there is a high turnout?
- **Suitability:** Is the building readily available in the event of any unscheduled elections? Is there any possibility that the building may be demolished as part of a new development?
- **Accessibility:** Is the building accessible to all those entitled to attend the polling place?

The Electoral Commission also supplies a number of templates to use to assess the suitability of polling place facilities.

The Electoral Commission further advises that location, size and layout of any polling place/station must be a key consideration when deciding on the number of electors to be allocated to a polling station and has set a suggested ratio of electors attending a polling station to be 2,250.

Inevitably there will be an element of compromise between the different factors involved, and indeed the Electoral Commission acknowledges this as follows: “In practice, however, the choice of polling places will often be a balance between the quality of a building (access, facilities, etc.) and the proximity of the building to the electors. When making a decision, all factors will need to be considered and the authority will need to be able to demonstrate their reasoning behind the decision.”

### The Role of the Returning Officer

The Council is required to consult the (Acting) Returning Officer for every Parliamentary constituency that is wholly or partly within its area. This means that the Returning Officer for the District of Fenland must consult the Returning Officer for East Cambs District Council in respect of the Wards within the East Cambridgeshire District Council area that lie within the Parliamentary constituency of North East Cambridgeshire. The Council also need to consult with the Returning Officer of Cambridgeshire County Council as it is responsible for conducting elections in the Fenland area on behalf of the County Council.

### Other representations

In reviewing polling districts and polling places, the Council is required actively to seek representations from such persons as it thinks have particular expertise in relation to:

Access to premises; or

Facilities for persons who have different forms of disability.

Such persons must be given the opportunity to make representations and to comment on the representations made by the Returning Officer.

The Council will also notify all local political parties or groups, election agents, ward councillors, etc. of the review.

### **Summary of Consultees:**

The Returning Officer(s) for East Cambs District Council & Cambridgeshire County Council

The Member of Parliament

Mayor of the Cambridgeshire and Peterborough Combined Authority

Cambridgeshire and Peterborough Police and Crime Commissioner

Members of Fenland District Council

Members of Cambridgeshire County Council representing the Fenland area

All the Clerks for Town / Parish Councils in the Fenland area

Various disability and equality groups within the District

Candidates and Election Agents who acted at the 2023 District elections

Polling places within the Fenland area

In addition, any elector in the constituency may make representations on the designation of polling places to the Council.

### **Completion of the review**

On completion of a review, the Council is required to give reasons for its decisions in respect of the designation of both polling districts and polling places.

### **In addition, the Council must publish:**

- all correspondence sent to the Returning Officer in connection with the review and all correspondence sent to any person who the Council thinks has particular expertise in relation to access to premises or facilities for persons who have different forms of disability;
- all representations made by any person in connection with the review;
- the minutes of any meetings held by the Council where details of the review have been considered;
- details of the actual designations of polling districts and polling places agreed as a result of the review; and
- details of where the results of the review have been published. The Council will publish results of the review on their website.

### **Challenge of review**

Although the Electoral Commission has no initial role in the review process itself, it does have an important role in respect of considering representations and observations made that a Council has not conducted a review so as to:

- meet the reasonable requirements of the electors in the constituency, or a body of them (i.e. the reasonable requirements of a particular area of the authority have not been satisfactorily met); or
- take sufficient account of the accessibility to disabled persons of polling stations within a designated polling place.

### **Who may make a representation to the Electoral Commission?**

Section 18D (1) of the Representation of the People Act 1983, sets out who may make representations to the Electoral Commission namely;

- thirty or more registered electors in the constituency
- any person who made representations to the Council when the review was being undertaken (except the Returning Officer)

- any person who is not an elector within the constituency who the Electoral Commission feels has sufficient interest in the accessibility of disabled persons to polling places within the area or has particular expertise in relation to the access to premises or facilities of disabled persons;
- any parish council which is wholly or partly situated within the constituency or parish meeting where there is no council.

Also the Returning Officer may make observations on any representations made to the Commission.

### **Review by the Electoral Commission**

The Electoral Commission is required to consider any such representations and observations and may direct the relevant council to make any alterations it sees necessary to the polling places designated by the review.

Should a Council fail to make the alterations within two months of the direction being given, the Commission may make the alterations itself.

### **Proposal**

The publication of the consultation document contains details of current polling district and polling places for each of the 18 wards within the District of Fenland, along with the details of any proposed changes.

### **Representations**

Any persons wishing to make comments or representations regarding the proposals may do so.

Any representations you wish to make should be received by 4:45pm on Friday, 10 November 2023.

All representations should be sent to:  
The Polling Districts and Polling Places Review  
Electoral Services  
Fenland District Council  
Fenland Hall  
County Road  
March

If you prefer you can email your representations to [elections@fenland.gov.uk](mailto:elections@fenland.gov.uk).

For any queries, please telephone 01354 622323.

All representations will be published on the Council's website as soon as possible after receipt. Even if you have already commented on the proposals, you may make further submissions in response to views and comments you see on the website.

The final decision will be taken by Council on 11 December 2023.

The new Register of Electors containing any revised polling districts will be published on 1 February 2024. Any new polling districts and polling places will become effective at all elections held after this date.

CNM3	2131	407	2436	463	Manea Village Hall, School Lane Or if that polling place is unavailable British Legion Club, East Street	No Change	Yes

### Returning Officer’s Representations

It is proposed that the polling stations for these polling districts remain unchanged. Although the 2028 estimate for both CNM1 and CMN3 exceeds the Electoral Commissions recommended number of electors attending a polling station, these are the total electorate figures and the postal voters need to be deducted from this so in reality the in-person electors are for CNM1 - 1912 and CNM3 - 1973.

There are no known issues in terms of accessibility, availability and facilities with any of these polling stations within these polling districts, which have previously been used successfully in the past.

**I consider that the polling districts and places for Chatteris North and Manea ward to be appropriate.**

### Returning Officer’s Representations

It is proposed that the polling stations for these polling districts remain unchanged. Although the 2028 estimate for both CS2 and CS3 exceeds the Electoral Commissions recommended number of electors attending a polling station, these are the total electorate figures and the postal voters need to be deducted from this so in reality the in-person electors are for CS2 - 2159 and CS3 - 1991.

There are no known issues in terms of accessibility, availability and facilities with any of these polling stations within these polling districts, which have previously been used successfully in the past.

**I consider that the polling districts and places for Chatteris South ward to be appropriate.**

## DODDINGTON AND WIMBLINGTON WARD

DW2	1960	2125	342	380	Wimblington Parish Hall, Addison Road Or if that polling place is unavailable Parkfield Sports Centre, Chapel Lane	Merger of DW3 with DW2	Yes

### Returning Officer's Representations

In relation to the former ward of DW3, it is proposed to merge Stonea with Wimblington as the Golden Lion PH is no longer open as a business and has been incorporated into residential accommodation. A visit has been made to Skylark Centre, which whilst is not in the centre of Stonea does still lie in the ward, to see if there is any accommodation suitable for use as a polling station and whilst it does have suitable accommodation that could be used as a polling station the centre is unwilling to make any part of the building available to us. There is the possibility that the car park could be used to place a mobile polling station but this does not come without its issues and the merger with Wimblington, Stonea is part of the Wimblington Parish, seems to be the best solution.

There are no known issues in terms of accessibility, availability and facilities with the polling stations at Doddington or Wimblington.

**I consider that the polling districts and places for Doddington Ward to be appropriate.**

**I propose that the Polling Districts of DW2 and DW3 be merged to form DW2, with the polling place being Wimblington Parish Hall, Addison Road.**

### Returning Officer's Representations

It is proposed that the polling stations for these polling districts would remain unchanged.

In relation to LWR1, Wisbech Cricket and Hockey Club is due to be refurbished during 2024 and once started will take 12 months to complete. It is not known when this work will exactly commence but the club does have the intention to have temporary buildings in situ throughout the duration of the build, which may be suitable for Polling Station use but it is not known until the building is in place and has been inspected. It is,

therefore, recommended to keep the Polling Place the same and if the club or temporary building is not suitable revert to the use of the alternative polling place, which is to be Wisbech Rugby Club, Chapel Lane as Barton Road Pavilion is still not suitable for use.

There are no known issues in terms of accessibility, availability and facilities with any of these polling stations within these polling districts, which have previously been used successfully in the past.

**I consider that the polling districts and places for the Leverington and Wisbech Rural ward to be appropriate.**

### Returning Officer's Representations

Due to the amount of growth in March South it has been necessary to create a new Polling District to handle the proposed forecast electors to 2028. MS1 has remained broadly the same but a few properties have moved into MS2, MS2 has been split and a new polling district of MS3 has been created. It is proposed that at present MS2 and MS3 electors use St Wendreda's Church Hall, Church Street, with the one Presiding Officer overseeing both registers but it will become necessary as the elector forecast increases to have St Wendreda's Church Hall as a dual station with two Presiding Officers and the elector numbers will be monitored in this respect.

Although the 2028 estimate for both MS1 and MS2 exceeds the Electoral Commissions recommended number of electors attending a polling station, these are the total electorate figures and the postal voters need to be deducted from this so in reality the in-person electors are for MS1 - 2008 and MS2 - 1894.

There are no known issues in terms of accessibility, availability and facilities with any of these polling stations within this polling district, which have previously been used successfully in the past.

**I consider that the polling district and polling place of MS1 to be appropriate, although a few properties will move to polling district MS2.**

**I propose that MS2 be split to create the new Polling District of MS3, but consider the polling place remains appropriate.**

**I propose that a new polling district of MS3 be created in the March South ward consisting part of MS2, with the polling place to be St Wendreda's Church Hall, Church Street, served currently by one Presiding Officer.**

WHE4	1546	1776	232	262	Coates Public Hall, 1 The Fold Or if that polling place is unavailable Coates Primary School, The Fold	Merger of WHE5 Turves with WHE4 Coates	Yes

### Returning Officer's Representations

In relation to WHE2, the Straw Bear PH is unable to accommodate a dual polling station as it wishes to remain open whilst polling activity is being undertaken in the venue. For the Elections in 2023, the Alderman Jacobs School was used as The Representation of the People Act 1983 places a duty on schools to provide a Polling Station venue if the Returning Officer deems it suitable. However, the room provided to us by the school was only adequate and we received a lot of feedback about the distance for electors to access the room, especially for the disabled, lack of facilities for staff and poor outside lighting to the room when it was dark. We have no option to use the Alderman Jacob School as there is no other venue currently suitable, however, once the access is improved for the Whittlesey Football Club this could be used, but we need to continue the use of the Alderman Jacobs School for the time being but will ask the school for a more accessible room for electors.

In relation to WHE3, the Nags Head PH, Eastrea Road is no longer open for business so it is proposed to change the alternative polling station to a mobile at the Eastrea Centre, Roman Gardens.

In relation to WHE4, it is proposed to merge Turves with Coates as for the past few elections The Three Horseshoes Inn, March Road, Turves has not been available to use for various reasons and there has had to be a mobile in the car park, which the owners have allowed us to utilize reluctantly. However, the goodwill of the owners cannot be relied upon and part of the car park is being built on and the space available is constrained. There are no other alternative venues or facilities within Turves for a Polling Station so there is no other option but to merge this polling district to the polling district which has the nearest polling station.

**I propose that the polling districts and places for Whittlesey East and Villages be as follows:**

**WHE1 – no change**

**WHE2 – Alderman Jacobs School, Drybread Road**

**WHE3 – no change but the alternative to be a mobile polling station**

**WHE4 – incorporation of WHE5 (Turves) with this polling district with the polling place being Coates Village Hall, The Fold.**

### Returning Officer's Representations

It is proposed that the polling station for this polling district remains unchanged, although we did receive some negative comments from residents whose properties lie within Whittlesey South polling district but have to pass Quinion Close to vote at another polling place.

There are no known issues in terms of accessibility, availability and facilities with this polling station within this polling district, which has previously been used successfully in the past.

WHNW2	1949	334	2024	344	St Johns Ambulance HQ, Plough Road Or if that polling place is unavailable Ivy Leaf Club, Gracious Street	Alternative to be a mobile polling station in the polling district	Yes

### Returning Officer's Representations

In relation to WHNW1, Whittlesey Baptist Church has previously been used and whilst it is happy to accommodate us it cannot be to the detriment of or displacement of the Church's groups and activities that take place in a building during the week and on the normal polling day of a Thursday. There is a possibility that the car park area can be used at the Whittlesey Baptist Church for a mobile polling station.

The Ivy Leaf has also ceased business and is up for sale, it is not known what the future is for this premises and whether it could be utilized in the future or if the car park could be utilized for a mobile polling station.

It is proposed that the St Johns Ambulance HQ becomes a dual polling station for both polling districts as there are no known issues in terms of accessibility, availability and facilities with this polling station.

**I consider the polling districts to be appropriate and propose that the polling place for both polling districts in the Whittlesey North West Ward should be St Johns Ambulance HQ, Plough Road, with the alternative to be a mobile polling station in the polling district.**

### Returning Officer's Representations

It is proposed that the polling stations for this polling district remain unchanged.

In relation to WR4, Wisbech Cricket and Hockey Club is due to be refurbished during 2024 and once started will take 12 months to complete. It is not known when this work will exactly commence but the club does have the intention to have temporary buildings in situ throughout the duration of the build, which may be suitable for Polling Station use but it is not known until the building is in place and has been inspected. It is, therefore, recommended to keep the Polling Place the same and if the club or temporary building is not suitable revert to the use of the alternative polling place, which is Wisbech Rugby Club, Chapel Lane.

There are no known issues in terms of accessibility, availability and facilities with the polling stations within this polling district, which have previously been used successfully in the past.

**I consider that the polling district and place for the Wisbech Riverside ward to be appropriate.**

WWW3	1736	2116	398	487	Meadowgate Academy, Meadowgate Lane Or if the polling place is unavailable another room or mobile polling station in the polling district	No Change	Yes

### Returning Officer's Representations

It is proposed that the polling stations for this polling district remain unchanged.

Since 2014, Meadowgate Academy has been used as the polling place for WWW3, which has raised issues due to child safety and protection and some electors have commented that they would prefer to vote at the old polling place for this polling district which was Walsoken Village Hall. The school hall, café and bungalow building have all been used with varying degrees of success as a polling station in the past, all have been adequate but there is no parking available on site, which can cause issues, especially for disabled. However, The Representation of the People Act 1983 places a duty on schools, including Academies, to provide a polling station venue if the Returning Officer deems it suitable and this is the only suitable premises within the polling district that can be used as a polling station.

There are no known issues in terms of accessibility, availability and facilities with these polling stations within this polling district, which have previously been used successfully in the past.

**I consider that the polling district and place for the Wisbech Walsoken and Waterlees ward to be appropriate.**

## **Summary of Recommendations**

**It is recommended that no change be made to the polling districts and polling places for the following wards:**

**Chatteris North and Manea**

**Chatteris South**

**Doddington and Wimblington (DW1 Doddington)**
