

Fenland District Council Infrastructure Funding Statement 2024/2025

1. Introduction

The Infrastructure Funding Statement (IFS) provides a summary of the financial (and non-financial) contributions relating to Section 106 Legal Agreements (S106) for Fenland District Council (FDC) for a given financial year. Reporting on contributions sought and received from developers for the provision of infrastructure to support new development.

Fenland District Council is required per annum to produce an Infrastructure Funding Statement (IFS) under the regulation Community Infrastructure Levy Regulations (2019 Amendment) Regulation 121A Schedule 2 Section 3 to detail how much has been collected, spent and the funded projects to date.

The income from S106 Contributions (which are also known as 'planning obligations' or 'developer contributions') is used to help fund supporting infrastructure whilst also contributing to opportunities for employment growth and the provision of affordable housing.

Section 2 of this IFS presents FDC's collection and spending of S106 income in the financial year 2024/25

2.4 S106 Allocations

£1,042,629 of S106 funds were available to be allocated by FDC at the close of the 2024/25 reporting period. This sum includes S106 sums which have, or will be, passed to an internal team to fund a specific infrastructure project or infrastructure type. It also includes sums which will be passed on to external organisations, but which are yet to be transferred.

The allocation of any S106 contribution requires the proposed project to meet the definitions contained in the S106 Agreement for each development.

This funding is allocated towards infrastructure projects which may be:

- dependent on the delivery of cumulative housing sites to trigger demand; -
- dependent on other funding mechanisms to support delivery; -
- dependent on other processes to complete prior to project delivery, for example the transfer of land; -
- large single projects for which delivery is already underway but for which funding has not yet been drawn down.

3 Planned Expenditure 2025/26

This section sets out how the spending of S106 income will be prioritised over the next reporting period.

The amount and timing of S106 funding is dependent on the nature and scale of the development, the number of implemented planning permissions, build-out rates, and the phasing of development.

S106 funding must be spent in accordance with the terms of the legal agreement and is usually required to be spent within a specific period. S106 income varies on a site-by- site basis depending on a range of factors, such as the viability of development and site- specific considerations. This makes it difficult to forecast future S106 income and expenditure.
